

## Commitment to Ensure Continued Availability of the E-learning

In the framework of the **MORE4Sustainability Project (NWE0300385)**, co-funded by Interreg North-West Europe, the undersigned partner commits to ensuring the continued availability of the **Sustainable Asset Management E-learning** developed within the project.

### Purpose

The purpose of this commitment is to guarantee that the knowledge and e-learning training materials created under the MORE4Sustainability project will remain accessible to professionals in the industrial asset management community beyond the official project end date (April 2025).

### Commitments

The Belgian Maintenance Association (BEMAS) hereby commits to:

- 1. Maintain Availability**  
Ensure that the e-learning platform and all related training modules remain accessible for a period of at least 5 years after the project end date (September 30th 2025).
- 2. Hosting & Access**  
Provide long-term hosting of the e-learning on the BEMAS Moodle platform (or equivalent), with access granted **free of charge**.
- 3. Language Versions**  
Keep the e-learning available in the four languages developed during the project: English, Dutch, French, and German.
- 4. Licence**  
Ensure that the e-learning materials remain accessible under the Creative Commons licence (CC BY-NC-ND 4.0), enabling use by third parties under the agreed conditions.

For the project Lead Partner BEMAS – Belgian Maintenance Association vzw-asbl :

Wim Vancauwenberghe  
Executive Director, BEMAS
