

Commitment to Ensure Continued Availability of the E-learning

In the framework of the **MORE4Sustainability Project (NWE0300385)**, co-funded by Interreg North-West Europe, the undersigned partners commit to ensuring the continued availability, promotion, and dissemination of the **Sustainable Asset Management E-learning** developed within the project.

This joint commitment ensures that the knowledge and training materials created under the MORE4Sustainability project will remain accessible and actively promoted to professionals in the industrial asset management community for at least **five (5) years** after the official project end date (September 30th, 2025).

[Partner name] hereby commits to:

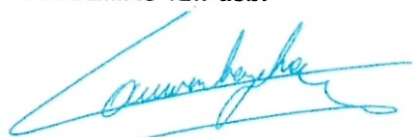

1. **Promotion:** Actively promote the availability of the E-learning in its national network(s) for at least five (5) years after September 30th, 2025.
2. **Information Page:** Create and maintain an information page on its website, in the national language(s), with clear instructions and a link to the Sustainable Asset Management E-learning hosted by BEMAS.
3. **Outreach & Engagement:** Include references to the E-learning in communication channels (e.g., newsletters, events, social media) to ensure ongoing awareness.

BEMAS – Belgian Maintenance Association (Lead Partner) hereby commits to:

1. **Hosting & Availability:** Provide continuous hosting of the E-learning on the BEMAS Moodle platform (or equivalent) for a period of at least 5 years after the project end date (September 30th 2025) under the Creative Commons licence (CC BY-NC-ND 4.0), ensuring free-of-charge access for users.
2. **Accessibility:** Guarantee that the four language versions (English, Dutch, French, and German) remain live and accessible as developed in the project.
3. **Feedback Sharing :** Collect and share usage statistics and participant feedback with the partner, specifically regarding participation from their country.

This agreement is valid for a minimum of five (5) years from September 30th, 2025. Either party may terminate the agreement earlier only if an alternative arrangement is provided that ensures the continued availability and promotion of the E-learning to the same or greater extent.
